PROJECTS

- **Simple Voting System – Full Stack Web Application**
As part of my self-learning, I developed a basic-level voting system web application using Spring Boot, JPA, MySQL, HTML, and CSS. The project helped me practice building RESTful APIs for simple user authentication, vote submission, and result viewing. Followed a layered architecture (Controller-Service-Repository) in Spring Boot to structure backend logic and integrate with the frontend..
- **Smart Serve Cafeteria: Final Year Group Project**
Developed a full-stack website Using HTML, CSS, JS, SpringBoot and MySQL . Implemented features such as user authentication, product catalog, and order cart, online payment functionality
- **LeetCode Stats Viewer:**
Created a responsive web app using HTML, CSS, and JavaScript to fetch and display LeetCode user stats like problems solved, rank, and Reputation using API.
- **Portfolio Website:** shivampisal.xyz
Developed a personal portfolio website using HTML, CSS, and JavaScript to showcase my skills and projects, featuring a responsive design and interactive elements.

CERTIFICATIONS

- **Full Stack Development Course :** MindScript Tech, Pune — Jan 2025 to July 2025
Completed an industry-focused training covering backend (Java, Spring Boot, MySQL) and frontend (HTML, CSS, JavaScript, Angular) development.
Gained hands-on experience through real-time projects, API integration, and building responsive full-stack web applications.
- **ChatGPT + Bing (Copilot):** Prompt Engineering Masterclass
Completed an online course focused on crafting effective prompts for AI tools like ChatGPT and Bing Copilot to enhance productivity and problem-solving.
